Serial Nos. 3

Part B for October 24

SUBJECT

Reports on the Seasonal conditions of the Maddagoda & Paragoda Tks & the opening of an experimental kitchen at Kodagoda Maddagoda Tk

Serial No.

4

From

The Rev Comm in his letter No DS/M-45 dated 11. 9. 24

Forwards copies of D.O. letter etc from the D.C. Tinnevelly District regarding the opening of a kitchen at Kodagai in the Maddagiri Taluk* and states that the D.C. has been asked to open similar kitchens in other places, if necessary, without delay by telegraphic orders of the Dewan

* for feeding the destitute.

The R.C. has been informed in the Fo. dated 13. 9. 24 that Govt do not consider it necessary to open any experimental kitchens at present.

2 Subd for orders

Fmb 14/9/24

3 It may however be pointed out that Kitchens have been opened in Madakkina Taluk, borders on the Maddagiri The conditions there may not be very much worse than in Pavugada of Maddagiri. In 1909 no kitchens were opened by Govt. & the Famine Relief was confined to cash and grains.

Serial No. 4

As the situation is reported to be back and as no change for the better is probable for some time to come it seems necessary that the arrangements that we now order should be on a temporary basis. It is therefore necessary to direct that only a start big work should be undertaken which may afford the requisite opportunities for completing the Ruling Chieftains may call to mind near the Centres of such work. The existing procedure for affording gratuitous relief will not prove to be satisfactory, or capable of meeting all the needs of the situation. The main points to keep in view are 1) the provision of adequate works - which both should be such as satisfactory remember 2) that Efficient Supervision may be possible and an Efficient System of testing the distribute who are capable to work &c.)

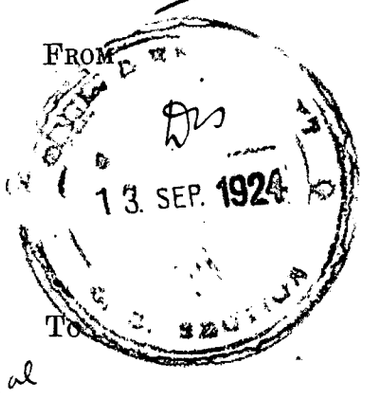
IN MYSORE.

Confidential.

No. D5/24-25 ne1

Bangalore, 11th September 1924

FROM



K. CHANDY ESQ., B.A.,
Revenue Commissioner in Mysore.

To

The Secretary to the Government of
His Highness the Maharaja of Mysore,
Revenue *Department.*

Special
13.9.24

SIR

Rec'd

In continuation of my letter No.D.5/24-25 dated 9th September 1924, I have the honour to forward herewith copies of D.O. letter No.C.C.1840 of 22-23 dated 10th September 1924 and its enclosure from the Deputy Commissioner of Tumkur District reporting that he has issued necessary instructions for the starting of a Kitchen at Kodagadala in the Maddagiri Taluk. He has also been asked to open similar kitchens in other places also if essential without swelling cost beyond what would be incurred for granting gratuitous relief, pending decision whether regular famine kitchens have to be established. It seems to me that it is desirable to start such kitchens at Kodagadala and similar villages for granting relief to the Emaciated people.

I have the honour to be
Sir
Your most obedient servant
K Chandy

Revenue Commissioner.

M.A.N.

Office of the Deputy Commissioner,
Tumkur District,

Dated, Tumkur the 10th September 1924.

Dear Sir,

The Revenue Commissioner is of opinion that grain doles will not be of much use in Kodagadala and that as a large number of destitute persons is already on the list, a kitchen may be started with advantage utilising the materials not in excess of the cost of doles now being issued for gratuitous relief.

2. As no extra expenditure could be incurred on this account the following arrangement may be adopted:-

1. A Committee of 4 or 5 influential persons including the Patel of the village should be formed, at once.

2. A reliable local merchant of shop-keeper should be appointed to issue every day, necessary rations at the lowest possible rates to the Committee who should scrutinise the quality of the material before receiving them.

3. One of the village servants preferably the Talwar may be asked to cook the food utilising the services of the able bodied persons receiving gratuitous relief, in grinding the ragi of Navane that might be used to prepare the meal.

4. The cooked food with dal-water should be distributed once a day at 1 o'clock in the after-noon in the presence of at least two of the Committee members on the same lines as is being done by the charitable committee at Madakasira.

5. The distribution of food should be restricted to the indigenous persons who have been duly brought on the gratuitous relief list under proper authority. If any member among them objects to receive the food on caste prejudices, he or she may be given the usual quantity of grain. But this should be discouraged as far as possible.

6. The Committee may be given discretion to bring on the relief list any destitute children belonging to the Panchamas or other depressed classes, that might unexpectedly come to their notice.

7. No separate shed or enclosure involving any cost, should be constructed for the purpose. A mantap or the Chavadi should be used as a kitchen purchasing a few pots if need be.

P.T.O.

8 The Special Sheikdar should be deputed to supervise the work of the Committee, checking the number of men on the roll (for which a separate attendance register should be maintained) and the issue of rations by the merchant. The accounts should be checked every day and adjusted invariably once a week by the Arildar himself out of the funds sanctioned for Gratuitous Relief.

9. Care should be taken that no room is given for abuse or complaint.

Please go to the spot immediately and arrange to start the kitchen if possible from tomorrow alone, reporting the fact to me demi-officially.

Sd/. M. Zahiruddin Mecci.

Copy.

Revenue Commissioner. 18/9/1924

D.O. letter No.O.C. 1840/22-23 dated 10th September 1924 from the Deputy Commissioner, Tumkur District, to the Revenue Commissioner in Mysore.

Necessary arrangements have been made for the supply of material to get more copies of photographs taken in the Maddagiri Taluk and I hope to send them so as to reach you on the morning of Friday.

As regards the starting of a Kitchen at Kodagadala in the Maddagiri Taluk, I have issued necessary instructions to the Sub Division Officer and the Amildar, Maddagiri to start the same, if possible, from tomorrow. A copy of my Memo of instructions is herewith enclosed for favour of perusal.

You have suggested that the total expenditure in this connection should not exceed that of the cost of doles. But it may not be possible to give the same quantity of cooked food with necessary soup for the value of the doles, which have been fixed at the lowest possible rate viz., (half a seer per adult and ¼ seer per child). I think, therefore, that some margin should be made for these extras. I shall submit proposals tomorrow, for necessary funds, as desired in your D.O. of 8th instant.

Copy.

Revenue Commissioner. 18/9/24

G.R.

The question for consideration is whether the policy so far pursued in regard to the relief of distress in Pavagada and Maddagiri Taluks requires any change in view of the fact that the rainfall in this area during the current year also has been insufficient.

According to the Mysore Famine Code of 1909 there are three stages of action. (i) Period of observation, (2) Period of test, and (3) Period of relief. The first two are only preliminary stages for finding out if there is demand for labour and if there are famine conditions prevailing. The Deputy Commissioner has to open test works to determine the demand for labour and when he is satisfied that owing to the prevalence of scarcity test works attract labour, famine is declared and after this, steps are taken for the commencement of relief operations viz.,(i) Conversion of test works into Relief works, (2) Opening new Relief works, and (3)Gratuitous Relief.

In actual practice, however, the regular procedure prescribed in the Famine Code regarding the opening of test works has not been followed. In 1893, and again in 1908-09 Government decided that it would be better on the appearance of unfavourable conditions to grant loans on a liberal scale and to - - provide employment for people in the vicinity of their homes by expanding the normal kinds of works so that the people might resume their normal avocations with the first signs of improvement.

This policy was followed by Government

last year and a sum of nearly 8 lakhs was spent to relieve distress. These arrangements have been found to be sufficient to meet the requirements in Bangalore, Kolar and portions of other districts that were affected but in the Tumkur District, owing to the repetition of the failure of rains in Maddagiri and Pavagada Taluks and portions of Sira Gubbi and Koratagere this year also it has been found necessary to continue distress operations. The situation in these areas is bad as they are having a third year of scanty rain-fall Conditions are reported to be worse than what they were this time last year. The Revenue Commissioner has recently toured in these areas and reported that there are many instances of emaciation The demand for employment is likely to be keener this year than in the last year and last longer The problem therefore is to keep the people in these tracts employed till the harvest season of 1925 provided it rains well next year Though we may not declare famine in these areas, the condition as reported by the Revenue Commissioner seems to be sericus and it has to be considered whether the grant of loans, which only adds to the indebtedness of the ryots, or the grant of gratuitous relief which by itself has a demoralising effect, or the opening of small works will go very far in meeting the situation. If loans are given over and over again, the ryots will ultimately find themselves unable to repay them even when

they get good crops, with the result that they will have to lose all that they have in repayment of the loans.

It is a point for consideration whether having regard to all these circumstances of the case it will not be better to start one or two important works in this area which will be capable of affording continuous employment to a fairly large number of people. Tank-Maintenance and Village Improvement Works can afford only very limited employment and for short periods. They may not relieve all that requirements of the situation and if distress deepens it will be difficult for us to find employment to the large number of people that will want employment. Again as the demand for employment increases and the number of people who come for work goes up it would be better to start bigger works where efficient supervision can be arranged. Similarly the existing arrangements for gratuitous relief may be quite satisfactory in the initial stages when the gratuitous relief is limited. But as the number on gratuitous relief increases, and this movement has already begun, the existing system of doles will not be satisfactory and will be liable to abuses. In areas where there is demand for gratuitous relief it would be advantageous to organise the distribution of cooked food through some local agency

The points on which orders required are:-

i. The commencement of some important work like the Thumbadi Project,

ii Distribution of cooked food

instead of granting dolls

The main object is to
minimise measures which
if the distribution deprives
the demand for labour
& what increases with
must- all the requirements
of the case

SIR.

I have the honour to forward herewith for the information of Government Special Weekly Season report in original on the Seasonal conditions of the Maddagiri and Pavagada Taluks in the Tumkur District for the week ending Saturday the 27th September 1924.

I have the honour to be,
Sir,
Your most obedient servant,

Assistant Commissioner,
For Revenue Commissioner
(Absent on Casual leave)

M.A.N.

IMMEDIATE (D)". O.C. 1840/22-23.

Office of the Deputy Commissioner,

Tumkur District,

Dated, Tumkur, the 27th Sept: 1924.

Special Weekly Distress Report on the Seasonal Conditions of the Maddagiri and Pavagada Taluks in the Tumkur District, for the -- week ending Saturday the 27th September 1924.

AREA AFFECTED :-- The whole of the Taluks of Maddagiri and Pavagada continue to be affected.

RAINFALL: -- The accompanying statement shows the rainfall gauged at the several stations in the District, during the week. The rainfall has been uniform throughout the District and has been very beneficial to the standing crops which were withering. The Amildar of Maddagiri Taluk expects that the withering crops in his taluk may also revive. The Amildar of Pavagada Taluk reports that the standing crops have been improving from the recent rainfall. -- Paddy and kulthi are being sown in parts of the Maddagiri and Pavagada Taluks.

NEED FOR WORK: -- The Amildar of Maddagiri Taluk reports that 3 road works 12 Village Improvement Works and 4 Tank Works have been started and about 750 coolies have been working on them. In addition to the above, consolidation work at Maddagiri, Sira and Maddagiri-Goribidanur roads, is going on and more than 100 coolies are reported to be working. In the Pavagada Taluk, 4 Village Improvement Works have been taken up, with about 200 coolies working. Thus about 1,050 men have been provided with employment in these two taluks.

Since there has been rainfall in the affected parts, the ryots who were in need of labour, are reported to have been engaged on their fields. This may afford labour for a number of people for a week or two.

The Executive Engineer, intimates that as the tanks have -- received some supply of water rendering earthwork impossible for some time, he has asked the Assistant Engineer stationed at ----

Maddagiri

Maddagiri to take up silt clearing in the feeder channels. The estimates prepared in this behalf are said to have been submitted to the Chief Engineer for sanction. The total cost of these works may amount to Rs.4,000/- and the entire sum will have to be borne by Government, as already reported As starting of large Irrigation Works like feeder channels may take some time, I have issued instructions to the Amildars concerned, that in villages where there is a large number of the cooly population, specially Panchamas, in need of work, excavation of pits and planting of topes in gomal or other convenient Government Kharab lands, may be undertaken in the two taluks of Maddagiri and Pavagada.

I have also suggested in one of my recent communications the taking up of the construction of the Tumbadi tank in the Kortagere Sub Taluk, and this project has been engaging the attention of Government for some time past. It is, therefore submitted that if it is taken up now, instead of some time hence, it will be of immense use to the cooly population of the surrounding taluks, not to speak of its permanent advantage as a great reservoir in a dry taluk, where rainfall is always uncertain.

PRICES OF FOOD STUFFS : -- In the Maddagiri Taluk rice is being sold @ 3½ to 4 seers and ragi 7 to 7½ seers per rupee and in the Pavagada Taluk, rice is being sold @ 3¾ to 4 seers, ragi 7 to 8¼ seers and Jola 7 seers per rupee.

DRINKING WATER :-- There is no difficulty for drinking water anywhere in the District.

L O A N S : -- Adequate grants have been made for the issue of fresh loans as well as for the payment of 2nd and 3rd instalments due on the loans sanctioned in 1923-24. The Amildar of Maddagiri states that there is urgent need to issue subsistence loans more liberally to the ryots who will have to be provided with means of subsistence till the next harvest. He will be instructed to use a portion of the general grant for this purpose with necessary safegaurds as required under the

rules.

rules. When the present allotment is exhausted, application will be made for additional funds. The expenditure of the week is noted in the enclosed statement.

GRATUITOUS RELIEF In their order No.201-3/D. dated the 25th September 1924 Government have been pleased to sanction an -- additional allotment of Rs.2,500/- for gratuitous relief. According to the reports received from the distressed taluks, about 1,000 persons in the Maddagiri Taluk and 500 persons in the Pavagada Taluk, involving a recurring expenditure of about Rs.100/- per day, are in receipt of this relief now. Complete lists of persons under gratuitous relief in some of the villages are said to be still pending submission. The future requirement under this head will be included in my next report.

PRIVATE CHARITY : In addition to the private charity organised at Maddagiri and Pavagada where 200 persons are bein fed daily, in each of the towns, it is gratifying to note that a similar charity is being organised in the Hosakote village (Pavagada Taluk), where there are several persons in comfortable circumstances. The Amildar reports that arrangements to collect Rs.100 per month have already been made for issuing doles of grain to the destitute persons, at the usual rate of ½ seer of ragi per man and ¼ seer to a child per day.

ARTISANS : - Arrangements have already been made for the grant of loans to the weavers, as usual, through the Co-operative Societies.

PUBLIC HEALTH : -- Public Health is reported to be generally good.

CATTLE HEALTH :-- This is reported to be good. The rinderpest prevailing in the villages of Hosakote and Jalodu in the Pavagada Taluk is reported to be subsiding.

CONCLUDING REMARKS : -- The recent rainfall has given some hope to the ryot population. But to reap any real benefit, it requires some time. There is not much of a dry crop on the lands in the affected taluks. If the remaining rains (Haste, Chitta and Swati), should also be as favourable as the Uttara rain, a good --

good harvest of horsegram may be anticipated. If tanks also fill, the Vaisakhi cultivation (Paddy) will be taken up on an extensive scale; but it is too early to say that the situation has changed for the better.

For Deputy Commissioner
Tumkur District.

Office of the Deputy Commissioner
Tumkur District
Dated Tumkur the 4th October 24

Special Weekly Distress Report on the seasonal conditions of the Maddagiri and pavagada Taluks in the Tumkur District, for the week ending Saturday the 4th October 1924

AREA AFFECTED : -- The whole of the Taluks of Maddagiri and Pavagada continue to be affected.

RAINFALL : --- The accompenying statement shows the -- rainfall gauged at the several stations in the District during the week. The Amildar of Maddagiri Taluk reports that some more showers are wanting in his Taluk. It may further be said that the recent rains have improved the standing crops much.

NEED FOR WORK : -- There is no change from the information furnished last week. The Amildar of Maddagiri Taluk reports that some of the cooly class are engaged in the agricultural operations.

PRICES OF FOOD STUFFS : -- The Amildar of Maddagiri -- Taluk reports that rice and ragi are being sold @ 3½ to 4 seers - and 7 to 8 seers per rupee and the Amildar of Pavagada Taluk --- reports that rice ragi and Jola are being sold @ 3¾ to 4 seers, 7 to 9 seers and jola 7½ seers per rupee.

DRINKING WATER : -- There is no difficulty for drinking water anywhere in the District.

L O A N S : -- There is no change from the information furnished last week, except that the Amildars of Maddagiri and Pavagada Taluks have been given necessary instructions re: grant of subsistence loans agreeably to the instructions received in the -- matter ~~for~~ from the Revenue Commissioner.

GRATUITOUS RELIEF : -- There is no change from the -- information furnished in the last week.

PRIVATE CHARITY : --- There is no change from the information furnished in the last week.

ARTISANS : --- Arrangements have already been made for the grant of loans to the weavers as usual, through the -- Co-operative Societies.

PUBLIC HEALTH : -- This is reported to be generally good throughout the District.

CATTLE HEALTH : -- This is reported to be generally good.
